## PROVEN ENDURANCE FOR HIGHER PRODUCTIVITY.

We understand that your tools and your skills are what makes you a living. So we built the new generation of Husqvarna chainsaws to endure the most demanding tasks and environments. Our new platform enables faster work and higher earnings, thanks to extreme acceleration and high power over a broad RPM range. But we also know that comfort matters – so even with all that power, they're still slimmer and lighter than you might expect.

# INTRODUCING THE NEW HUSQVARNA RIDER COLLECTION SERIES

Now you can achieve a tidy lawn without clippings while enjoying all the pleasures of driving a Husqvarna Rider. The new Rider Collection offers great performance, both in terms of excellent manoeuvrability and problem-free collection with superior capacity.

The powerful ACTech™ auger transports the clippings without clogging and compacts it to fill the collector optimally.

With the push of a button you can switch from collection to mulching on the go.

The large collector is conveniently emptied with a push of this button.

The combination of a powerful auger compressing the grass, and a large-volume collector, is the secret behind the superior collecting capacity. The Rider Collection can hold twice the grass volume of a conventional collecting machine, so you can mow a larger area before it's time to empty collector.

The cutting deck on the Rider Collect has a special design with counter-rotating knives that efficiently cuts the grass and throws the clippings backwards to the auger. Available with 103cm or 112cm cutting width.

## L RC318T

Innovative design offering effectiveness, efficiency and ease of use. Anti-clog collection system feeds from the front mounted deck to the collector.
